

INSIDE NEWS

Dear Readers

As parents guardians and teachers, we all want the best for our children and that most often starts with their education. The best way to support our children at school is to make sure they are there and ready to learn. Making sure that children get to school on time is an important part of a successful day. Everyone has emergencies and illnesses to deal with, but missing a day of school should be the last resort. A student cannot be successful in school if he is not present. "Let us remember: One book, one pen, one child and one teacher can change the world. So, once again the physical school has started, keeping the phobia of the pandemic at a bay and following all the precautions, to keep us safe and healthy.

We, at Alchemy recognize, appreciate, applaud and foster the fine blend of sensibilities in a child, changing a negative outlook from drab and demoralized to bright and expectant. We are, really, proud and exuberant to acclaim that the last quarter of the academic session 2021-22, inspite of being a turbulent year because of the chaotic changes in the life style of everybody, has been a fruitful year. Now, lot of planning is in the process. Notwithstanding, all this commotion, the activities went on relentlessly.
